

## PRESS RELEASE

Dietlikon, May 1st, 2009

### T&N AG creates additional market presence

Valentin Studer, former CEO of InfraNova AG, will be strengthening the sales team of T&N Telekom & Netzwerk AG at its headquarters in Dietlikon as from May 1<sup>st</sup>, 2009.

InfraNova AG ceased business operations as of the end of April 2009. The move by Valentin Studer to T&N Telekom & Netzwerk AG will enable a smooth transition of the existing customers in the Housing division to his new company. T&N Telekom & Netzwerk AG employs around 100 people. Since 1996, the company has been offering services in the fields of information technology, networks, traditional and IP telephony (VoIP) as well as unified communication.

Valentin Studer is 32 years of age, is married with two children, and brings with him long years of experience in IT infrastructure solutions. He is a proven specialist with extensive professional experience in matters of integral infrastructure solutions, consolidation and virtualisation as well as memory systems.

#### About T&N Telekom & Netzwerk AG

T&N Telekom & Netzwerk AG, with its head office in Dietlikon and branch offices in Zurich, Frauenfeld, Olten and Crissier, is a service provider offering custom-made solutions in the areas of telecommunications and information technology in Switzerland and neighboring countries. T&N creates connections: telephony, information technology, servers and PCs, hardware and software, Wide Area Network and Local Area Network communication and cable engineering. Whether in terms of engineering, advisory services, project implementation or outsourcing, T&N offers networked and integrated solutions to meet its customers' needs.
